

## UW ICTR Funding Opportunities: Open NOW (12/1/18)

See UW ICTR Funding Opportunities webpage for more details on ALL awards: <https://ictr.wisc.edu/FundingOpportunities>

**Target Audience:** UW-Madison and Marshfield investigators (faculty/scientists) conducting research focused on improving human health and/or reducing health disparities. ICTR-CAP funding opportunities facilitate multidisciplinary, community-partnered research that solves problems translating knowledge into improvements in clinical practice, policy, and community health programs.

### NEW: Collaborative Health Equity Research Pilot Award (requires junior/senior mentorship)

Request for Applications	Amt/ Duration	Brief Description	Letter of Intent Due	Application Due
<a href="#">Collaborative Health Equity Research</a> (CHER)	\$50,000/ 12 months	This award supports community-engaged health equity research projects wherein the PI is an early stage investigator and a senior co-investigator is engaged to ensure a mentored experience and to connect the research team with relevant stakeholders.	1/16/19	3/13/19

### Additional Funding Opportunities Open NOW

Request for Applications	Amt/ Duration	Brief Description	Letter of Intent Due	Application Due
<a href="#">Clinical &amp; Community Outcomes Research</a> (CCOR)	\$75,000/ 12 months	Supports excellent, community-partnered health research that solves problems translating knowledge into improvements in clinical practice, community programs and health policy.	1/16/19	3/13/19
<a href="#">Stakeholder &amp; Patient Engaged Research</a> (SPER)	\$100,000/ 12 months	Supports stakeholder/patient engagement in health research; this award supports activities that will strengthen a subsequent application for external funding requiring strong <i>stakeholder engagement</i> methodology as a foundation for a success.	1/16/19	3/13/19
<a href="#">Dissemination &amp; Implementation Research</a> (D&I)	\$150,000/ 18 months	This funding opportunity solicits applications that will identify, develop, test, evaluate and/or refine <i>strategies to disseminate and implement evidence-based practices</i> into public health, clinical practice, and community settings.	1/16/19	3/13/19

- **Application Materials:** Detailed RFAs and application materials are available on the ICTR Funding Opportunities page
- **Mandatory Workshop:** All potential applicants must attend a Mandatory Workshop in January of 2019 (date and location to be announced)
